ARRANGING FOR INDOOR RACING. THE FIRST MEET TO BE HELD AT THE MADISON SQUARE GARDEN ON DECEMBER 3-CYCLISTS

The closing of the outdoor racing season at the Parkway track on Election Day was a success in every way and the meet went to show that cycle racing, even when confined to amateur contests, can be made interesting, and that such contests can run off at a profit to the promoters. The only blunder of the management was in attempting to start so many men in the two-mile handicap. When over forty men start in one heat accidents are pretty sure to happen, particularly in an amateur The club interests were appealed to, and of encouraged this feature as much as they should The indoor racing season will begin the Madison Square Garden on December 5, the urday preceding the six-day race. The feature the first meet will be an hour race between as, the only man in this country who has ridden to that nitry-four miles in an hour, and Tay, the Frenchman. Taylore holds the one-mile de record, although as a middle-distance maning the outdoor season, he was not such a proneed success. The race will be short-distance races amateur and professionals. The meet at the len will be conducted under the auspices of the erican Cycle Racing Association.

END OF THE SEASON'S TOURNAMENTS AT THE LENOX CLUB.

The coincidence of bright weather and a holiday on Tuesday brought out a big crowd of lawn tennis players, and the Lenox club courts, at One-hun-dred-and-twenty-third-st, and St. Nicholas-ave., were in demand all day. The last two of the season's tournaments were finished up, and the rest of the season will be devoted to practice. The challenge match for the club championship was the feature of the day. G. Lorraine Wyeth.

who has held the club championship challenge trophy for two years, successfully defended the cup again, and it became his personal property. R. J. Bryan, who won the "round robin" championship tournament, challenged Wyeth, but he was beaten by 6-4, 6-4, 6-1.

The final matches in the fall "round robin" tournament were also played, and Wylle Grant, who joined the club since the championship contest, won first prize, Wyeth getting second. The matches were scored by the total of games, and Grant's final score was 86 games won and 34 lost, in eight matches. Wyeth was second with 83 games

Wen and M lost.

Under the new arrangement twelve of the members of the defunct New-York Tennis Club will join the Lenox club in a body. Several of the others are also expected to join. Those who have already applied are Dr. C. B. Chapin, C. W. Chudwick, A. T. Freedman, F. P. Rice, E. J. Rice, Mr. and Mrs. H. McCallum, M. J. Vincent Clifford Weston, G. G. VESSEL THE EUGENIA.

At Chester, Penn., J. Gardner Cassatt, of the New-York Yacht Club, is having a new steam yacht built for him, to be called the Eugenia, which yach built for him, to be called the Eugenia, which will replace the large steam yacht of the same name that was taken for Government purposes has summer. The new occan-going vesse; is being constructed at Roach's shipyard, from the designs of Gardner & Cox. of New-York. The Spaiding St. Lawrence Boat Company, of Ogdensburg. N. V. is building the boats to be carried in the darlis. These are a sailing lifeboat 25 feet long, an 18-foot cutter and a 12-foot dingy, all three to be built of mahogany throughout.

THE CRAFT AND THOSE WHO SAIL THEM. The Yacht Racing Association of Lake Ontario held its annual meeting at Kingston, Ont., on Sat-urday night, for the election of officers and for the settling of the racing rules. The rules accepted were the same as those adopted by the Yacht Racing Union of the Great Lakes, which held its meeting at Buffalo in the previous week, and then meeting at Buffalo in the previous week, and then passed the regulations recently framed and legalized by the Yacht Racing Union of North America in New-York. The new girth rule is now in force among all yachtsmen of the northern part of this continent. At Kingston a special provision was made for any bones now built which should be found to be moved out of their former class by the new measurement. Alfred G. Wright, a well-known yachtsman of Rochester, N. Y., was elected president of the association for the next year.

Captain Conk has laid up the steam yacht Alga which was purchased last month by Colgate Hoyt, of the Seawanhaka Cormthian Yacht Club. The A.ga is now at the vacht basin of the Seabury Company, at Morris Heights.

The steam yacht Barracosta, lately purchased by Edward Kelly, of the New-York Yacht Club, is cruising in the West Indies, and is now at San Juan, Porto Rico, having arrived from New-York after a passage of seven lays.

Lloyd Phoenix, of the New-York Yacht Club, is having his big three-masted auxiliary Intrepid painted and otherwise repaired at Tebo's, prepara-tery to setting out on a cruise to Southern waters. Captain Dyer has laid up the steam yacht Alcedo at Wilmington, Del. Her owner, George W. Childs Drexel, of Philadelphia, did not cross the ocean

this year in the Alcedo, and only went as far as

A. J. Wise, of the New-York Yacht Club, has put his steam yacht Chetolah out of commission, and Captain Mathews has her in charge at Tebo's. It is proposed in England, and by "The London Yachtsman," that Sir Thomas J. Lipton shall purchase the Valkyrie III for the purpose of testing the new Shamrock in racing with the old chailenger. In its last issue "The Yachtsman" says:
"The Valkyrie III was sent abroad long before her
qualities were sufficiently studied, but in the present case there can be no excuse for neglecting this
all-important point." "The London Field" has also
expressed some anxiety as to this.

MANY MEN STILL ON THE INJURED LIST-OUT-LOOK FOR THE PENNSYLVANIA GAMEL

Ithaca, N. Y., Nov. 9.-The Cornell coaches will have difficulty in geiting their players into shape for the University of Pennsylvenia game. The crippled list has not been reduced at all since a week ago, and it is doubtful if a strong team can be got together for the Lafayette game on Saturday. Captain Whiting and four of his colleagues were unable to practise to-day. Some were kept from the field owing to their work in the University. All things considered, the coaches are beginning to against the Quikers. Coach Warner said to-night that the outlook is discouraging. that the outlook is discouraging. He is finding much fault with the men because they do not report more regularly, and he said stringent measures would be taken for the next two weeks to bring the men down to the field daily. On account of a lack of men the final makeup of the team is unsettled. Dorner, who has physic centre throughout the season, was to-day changed to left tackle and Caldwell was put in his place. He will be kept at centre for the remainder of the week. It is doubtful if he will make a strong man, but Dorner is weak, owing to an injured lep, and is not in shape to play the position at present.

NEW MOVE IN THE SUGAR WAR.

COTTON BAGS-PAPER BAGS TO BE FURNISHED FREE.

Another move in the sugar war was made yesterday, when the American Sugar Relining Company posted the following notice in its offices:

To meet any demands that may be made for package sugar, we are preparing to furnish the trade a five-pound cotton package superior to anything yet offered. We will also put empty paper packages in the barrels, which will hold up to five pounds of granulated sugar and which may be filled by the retail trade at their convenience. Samples of the cotton bags were on exhibition yesterday at the sugar company's offices. They resembled the bags in which salt is ordinarily packed, but were of finer quality. Each bag is stamped as follows: "Five pounds superior quality extra fine granulated sugar, refined by Havemeyer & Elder, New-York. Weight and purity guaran-

teed."

The Arbuckles have been in the habit of putting up sugar in paper bags, but this is the first time cotton bags have ever been used for the purpose. The sugar company is considering the advisability of charging for the cotton bags, and probably will decide to make a small charge; but there will be no charge for the paper bags, which will be put into their barrels of sugar.

It is said that the Woolson Spice Company, which is controlled by the American Sugar Refining Company, is convassing the New-York trade to have puckage coffer handled by the grocers as package outmeal and similar commodities are handled.

DANES CRITICISE AMERICAN GRAIN.

SAY THAT RECENT CARGOES HAVE CONTAINED IMPURITIES AND BROKEN GRAINS-THE REASON. The members of the New-York Produce Exchange

were yesterday advised of a circular issued by the grain inspector of the Royal Danish Agricultural Society, in which it is declared that cargoes of corn which have arrived in that country recently from North American ports have contained impurities and broken grains to a greater extent than ever before, giving rise to general complaints among consumers and rejections and decisions to the serious
disadvantage and loss of importers.

The Danish society's inspection rules governing
grain and folder are similar to those in force on
the local Produce Exchange, so the complaints are
regarded as reflecting upon the trustworthiness of
the inspection certificates made out here. A member of the grain trade of the Produce Exchange yesterdey explained how the corn came to be in the
condition complained of. The corn, he said, rushed
down the leg of the elevator with such great speed
that on striking at the bottom the distributing
trough, which conveyed it to different parts of the
ship's hold, it was broken and dust was formed. before, giving rise to general complaints among con-

AN ACTOR ACCIDENTALLY SUFFOCATED. William F. Burroughs, an actor, fifty-eight years old, was found dead in his room at No 64 West Fifty-fifth-st., yesterday morning. The gas was turned on, but it is believed that death was accelerated. Burroughs was last employed at Wallack's Theatre. He is said to have been a brother of Burroughs, the actor who was burned in the Brooklyn Theatre fire over twenty years ago.

RUPEALO'S MACHINERY RREAKS DOWN

THE TRUST GOING TO SELL IN FIVE-POUND THE CRUISER, BOUND FOR MANILA, PUTS INTO

NEWPORT HARBOR. Washington, Nov. 9.-The cruiser Buffalo, which sailed last Saturday from Sandy Hook, bound for Manila, to join Admiral Dewey's squadron, put in at Newport, R. I., to-day with machinery broken down. Commander Hemphili reported to the Department by telegraph that he had been unable to proceed further on his course, and had been obliged to seek a shore station to repair. He asked for an investigation to fix the responsibility for the breakdown, and Secretary Long responded immediately by appointing Commander John McGowan, superintendent of the training station; Commodore S. Stockton, president of the War College, and Chief Engineer R. S. Griffin, of the Mayflower, a court of inquiry, with Lieutenant Chambers as judge-ad-vocate. The court will meet on Friday at Newport Such information as the Navy Department has indicates that the breakdown is not serious, and is confined to some of the valve gear of the air pumps. The Buffalo was formerly the Nictheroy, of the Brazilian Navy, and before that was a merchant ship plying between New-York and Rio. The Government purchased her from Brazil at the outbreak of the war, but she was found to be in wretched condition, as the result of many years of neglect. She will resume her voyage at the earliest possible moment.

JOINT HIGH COMMISSION MEETS TO-DAY.

DISCUSSION OF CANADIAN-AMERICAN QUESTIONS TO BE RESUMED.

Washington, Nov. 9 .- The Joint High Commission appointed to confer on questions at issue between this country and the Dominion of Canada will meet in this city to-morrow. It is believed that the sessions here will conclude the business before the Commission, and that a formal treaty covering all the points in controversy will result.

Ex-Secretary John W. Foster said to-day that the work was fairly well in hand, although no progress had been made since the adjournment in Quebec. The discussion is to be taken up where it was in-
